ABOUT STAR TRADER

Enter the universe of opportunities with us

STAR TRADER is one of the world's fastest-growing brokers. Bringing over 16+ years of market expertise, we are an international broker with whom you can trade CFDs in hundreds of instruments across six asset classes – forex, bonds, metals, indices, commodities, and shares.

We give you the confidence to trade efficiently by offering a high level of security of funds and a high paid-up capital.

Known for our customer-centric approach, we stop at nothing to ensure that our clients have all the tools and information they need to start their trading journey; which includes a flexible trading environment with ultra-fast execution.

ABOUT STAR TRADER

STARTRADER provides a wide range of instruments, including forex, shares, indices, metals, and commodities. We guarantee fast and accurate order execution through advanced technology and top-tier bank connections. With a 99.6% accuracy rate, we handle a significant number of daily forex transactions.

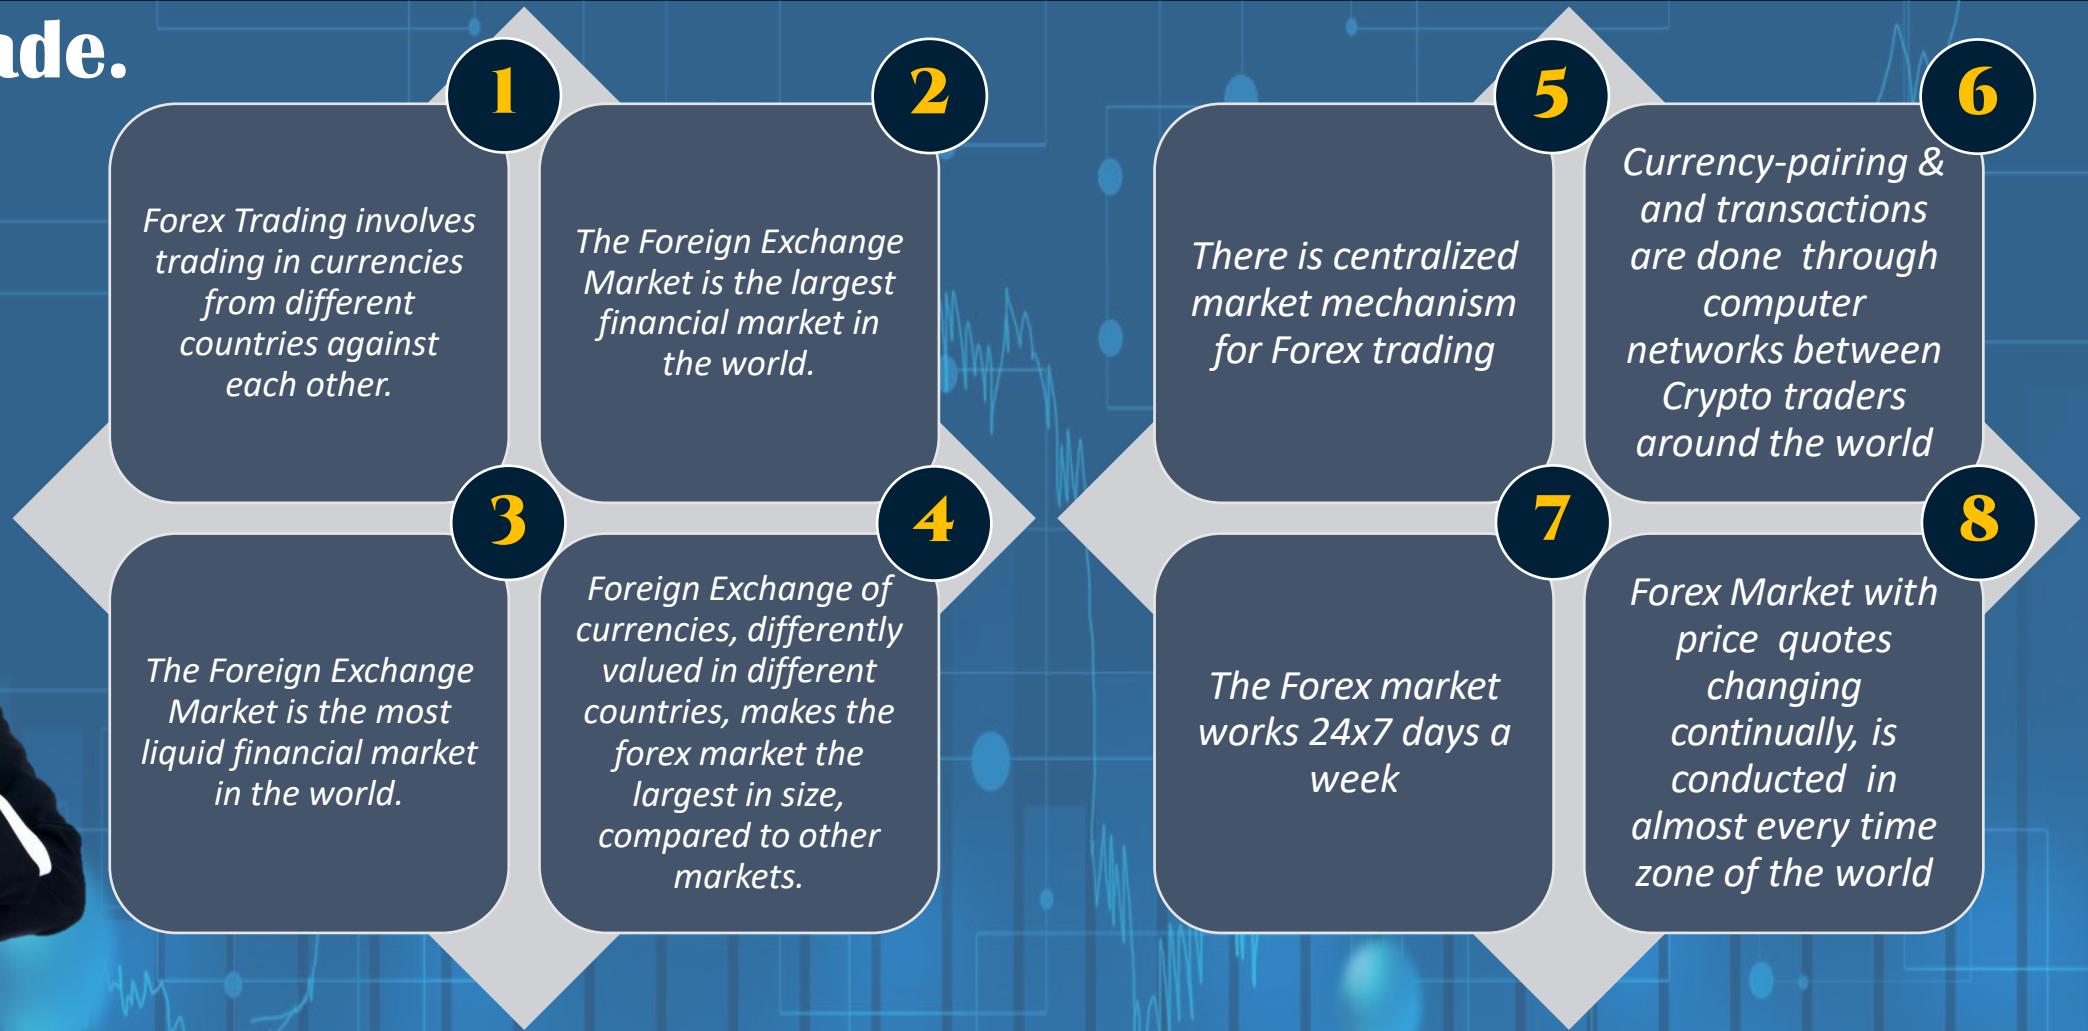

The Foreign Exchange (FX) market is the largest financial market in the world. FX volume exceeds \$09 trillion a day, according to the latest data from the Bank of International Settlement. Forex trading is the process of simultaneously buying one currency and selling another. Currency pairs are traded 24 hours a day, across the world in an over-the-counter (OTC) market, meaning there is no exchange.

The currency market is the only market that is truly open 24 hours a day with decent liquidity throughout the day. The major trading centers are spread throughout many different time zones, eliminating the need to wait for an opening or closing bell. We offer trading in major currency pairs and cross rates.

We offer you the perfect fusion of security, technology, and accessibility to trade. So, join us in the world of trading and discover opportunities across hundreds of instruments in five asset classes.

STAR TRADER

Currency-pairing & changing Price- quotes form the essence of the trade.

Wise, well-placed & well and time investment creates the best returns.

How Forex Works?

Forex trade allows a person to buy a particular currency at a price and sell the same later as and when its value increases. For instance, if you have one Great Britain pound, which amounts to approximately two American dollars, exchanging the GBP for US dollars will be a huge profit for traders.

The exchange rate of the currencies keeps on changing every minute. Forex trading leads the market with the average daily trading volume being over \$5 trillion. Thus, FX trading is considered the largest and most liquid market in the world. The average trading volume of the stock market, which appeared to be one of the most profitable businesses so far, does not record revenue that high.

MISSION & VISION & VALUES

MISSION

To enable our clients and partners to attain financial freedom by accessing the global financial markets in a flexible environment.

Every trader wants to maximize their profits. The more resources they have, the more they can make educated trades that will result in their money growing.

Artificial intelligence (AI) can help forex traders maximize their profits by saving them time, allowing them to be less involved, and using data to make informed decisions.

VISION

*To be recognized globally as a customer-centric, and market-leading forex and CFD broker. To be known worldwide as the broker that delivers: **The Power of Choice.***

We exist to provide outstanding services for accessing the Forex market. We ensure clear and accurate management for your funds, transparent and beneficial conditions for trading, and easy-to-use service for everything else where nothing distracts you from making a profit.
